GRISSOM COLONIAL HALL

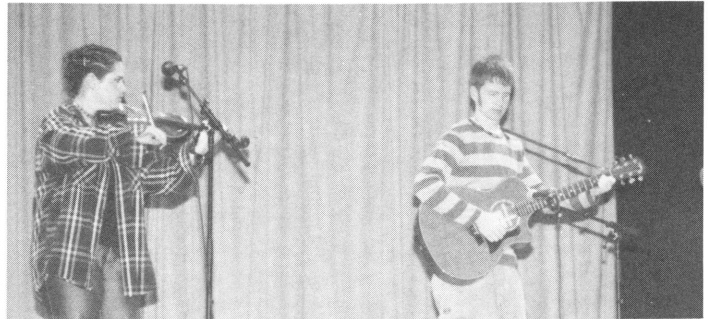

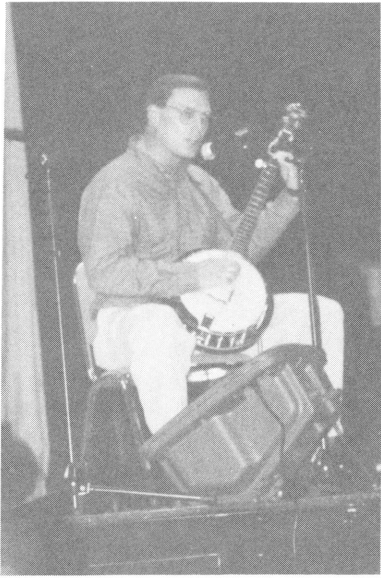

History of Colonial Hall

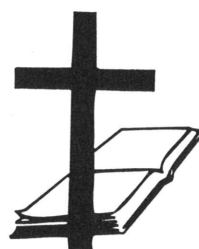

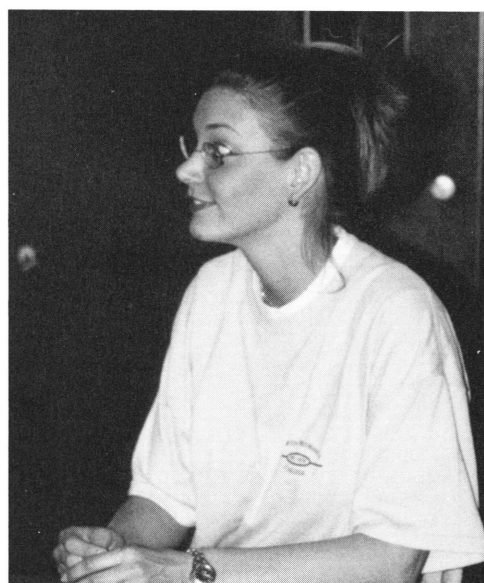

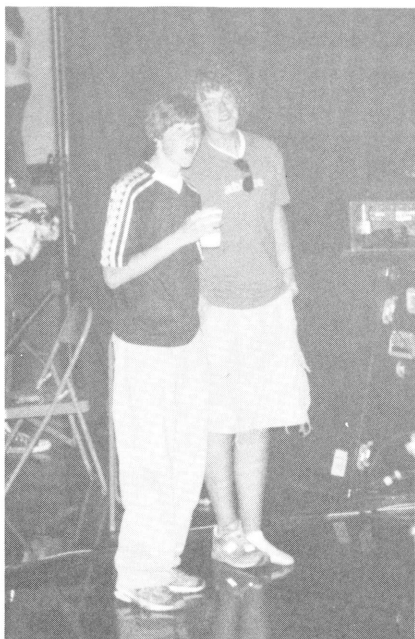

For well over a century, "Colonial Hall" was a private residence adjacent to the Martin Methodist College campus. Built in 1848 by community leader and physician Dr. William Batte, the mansion later served as the residence for the son of Thomas Martin and for Dr. Elihu Edmundson, a mayor of Pulaski. In 1878, the mansion was acquired by John C. Brown, who served as governor of Tennessee from 1871-1875, and lived there until his death in 1889. The Brown family retained possession until 1927 when the house was sold to Dr. and Mrs. James K. Blackburn. Members of the Blackburn family lived there until it was purchased by Martin Methodist College in 1996. Fire and strong winds did severe damage in 2000 and 2001, so ground was broken in June 2001 for a \$1.75 million reconstruction, to be known as Grissom Colonial Hall.

What are the

What is something that students do in class that really irritates you?

“My long list of irritants when I began my career as a teacher has dwindled remarkably. About the only one left is asking questions about what irritates me.” - Kerbe Lee

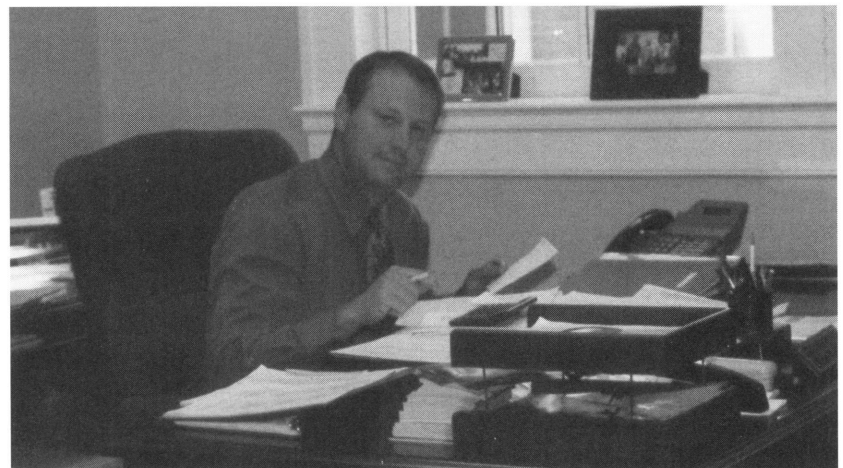

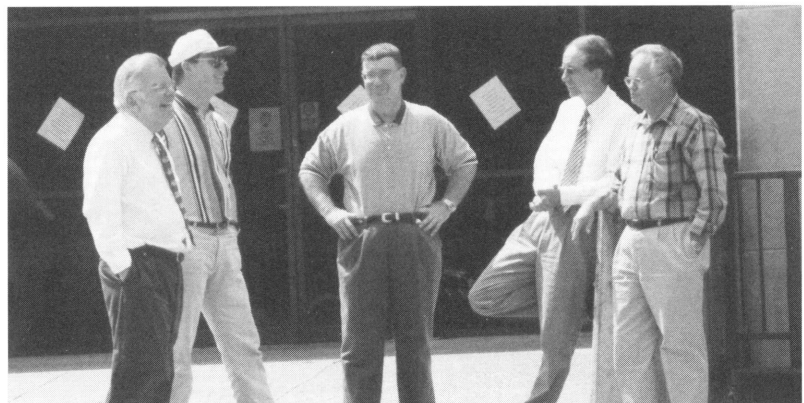

“When students are on grants and scholarships and they do not perform well as students. That money should go to some person who will try.” - Ralph Johnson

“Acting as though books were foreign objects they had never seen before. Reading will change your world, but many students have not learned to unlock the magic in books. How sad, for them and for us.” - Kayla Wiggins

“It irritates me when students are late to class, come to class unprepared, and bring food or drinks into the classroom.” - Johnny M. Jackson

Faculty Quotes

teachers saying?

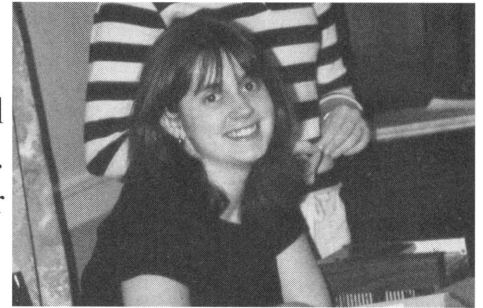

Name an outstanding student and tell why you see them as outstanding?

“Nikki Hicks is an outstanding student. She always strives for academic excellence.”

- Pat Whittemore

“Lori Mize - because she is an excellent student, participates in all musical and theatrical events and she is an overall good citizen.” - Howard C. Paysinger

“Hope Hafner- because she does everything well and with such grace that she is a joy to be around” - Kayla Wiggins

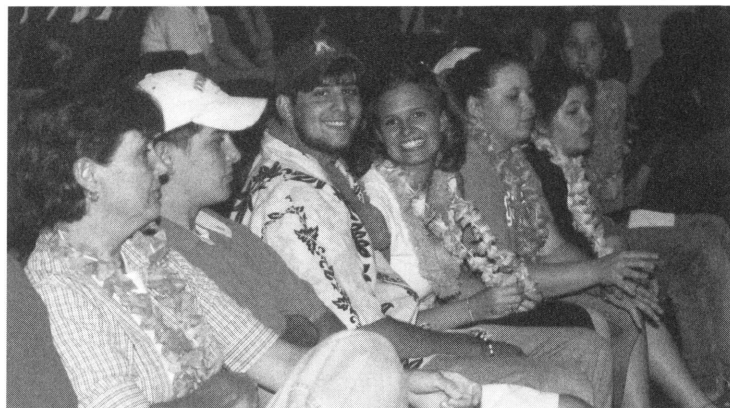

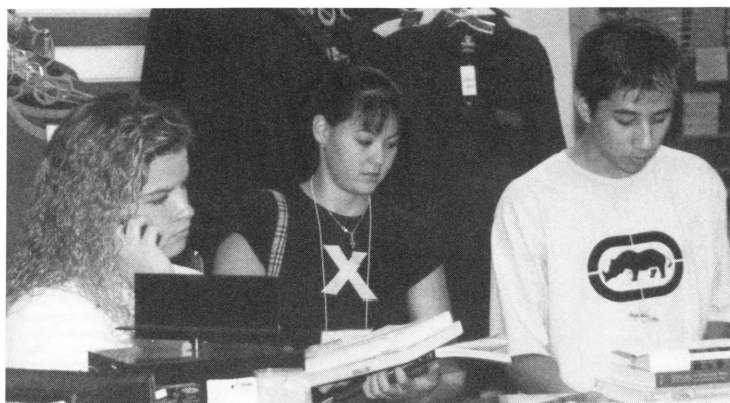

“Guillermo Gomez, one of our international students, always seems to be well prepared for math classes. He does the homework, participates in class discussion, and comes by my office for help with problems that he does not understand. I appreciate his hard work.”

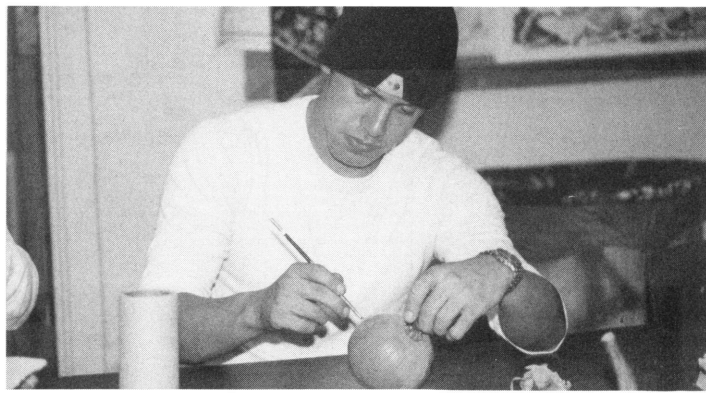

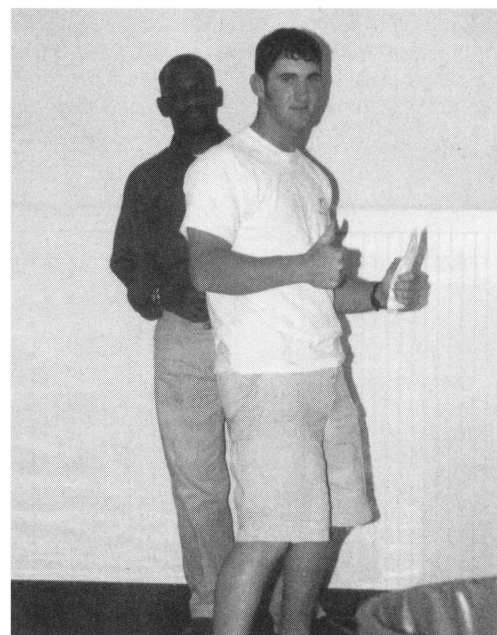

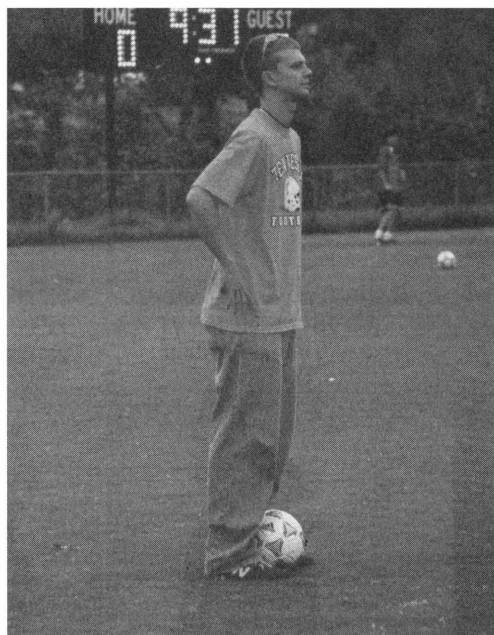

- Johnny M. Jackson

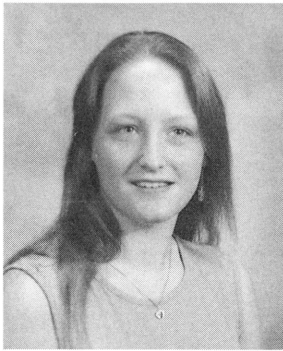

“I can’t name one, but many - the athleticism of many, the academic poweress of several, the hard academic work of lots, the humbleness of those who find it difficult.” - M. Christ

MMC Remembers 9-11

It seems strange to think that, just like every other generation before us, we now have a story to tell our children and grandchildren in years to come of a tragic event. Most of our parents can tell us exactly where they were when J.F.K. or Martin Luther King were killed. Our grandparents have a story to tell about how they learned of the attack at Pearl Harbor. Not many people can honestly say that they do not have any recollection of where they were and what they were doing when they heard about the terrorist attacks on the World Trade Center in New York. That day will be forever embedded in most of our memories. As our nation joined together to lend a helping hand in a time of great need, we gave of ourselves, our time, our money, and our support. We realized that maybe we were not so invincible after all. Phone calls, cards, letters and emails poured out of our homes and businesses to our loved ones just to say "I'm sorry for petty arguments.", or, "I love you." Somehow, the "big" things in our lives that day weren't so big. Though MMC's campus is a long way from New York City, we felt the grief here and we mourned right along with the rest of the world. One year later, we as students, business people, and a community gathered together to pay tribute to those who were taken by these tragic events in a service on campus that will not soon be forgotten.

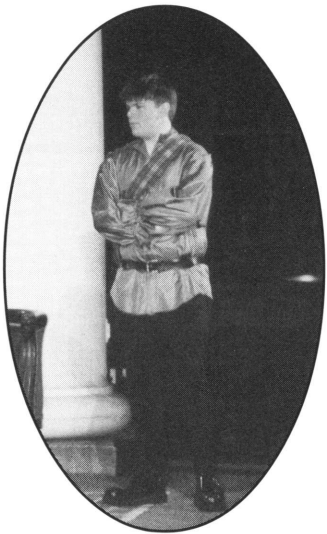

MMC's staff has heard the complaint "There's nothing to do in Pulaski" for years. This year, with the addition of a new staff member, students have been given the opportunity to participate in numerous activities here on campus. Lauren Henderson came to us as a graduate of Vanderbilt University to take on the role as Director of Student Activities. She has worked diligently to give us something to do in Pulaski. Whether you're into football, concerts or dancing, there have been activities for you. Fun was had a by all this year and the complaints have actually gotten fewer.

STUDENT ACTIVITIES

Fall Drama Production

MACBETH

Macbeth is not an easy play. It is about equivocation. It is about ambition, success, failure, and disappointment. Primarily though, it is about what happens when a person sells out himself. Macbeth is a great man--perhaps also a good man---who reaches beyond himself and almost immediately regrets it. It is perhaps a dark play that makes itself felt in many ways; perhaps it is not surprising that it has a history in the theatre of being curled. We have tried to go beyond the stereotypical depiction of evil that haunts the play in order to give you, perhaps, a diferent view of the world and the people of the story.

Boo Out

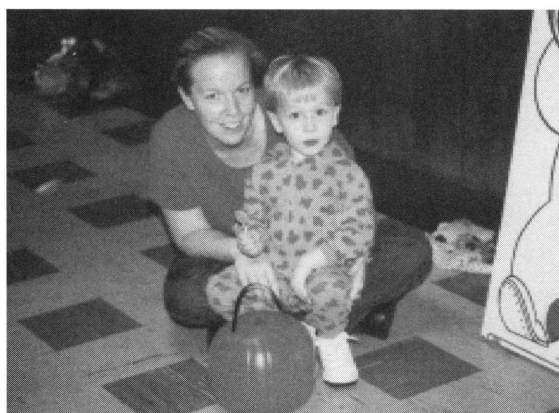

Maybe Halloween isn't just for the children.

"Sonny and Cher" stopped by for the festivities.

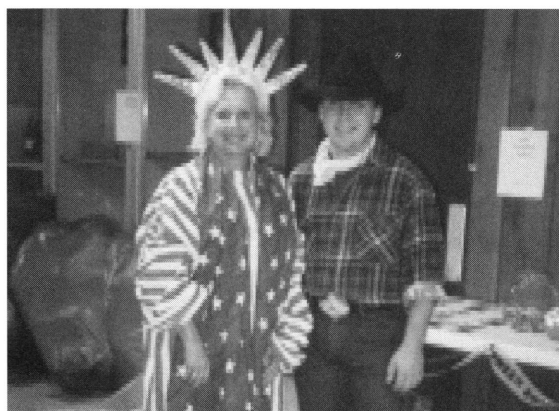

Face painting was a fantastic treat for the kids who came to the Boo Out.

The trick-or-treaters got plenty of candy.

The art classes chipped in and added a little artistic style to the evening with their painted pumpkins.

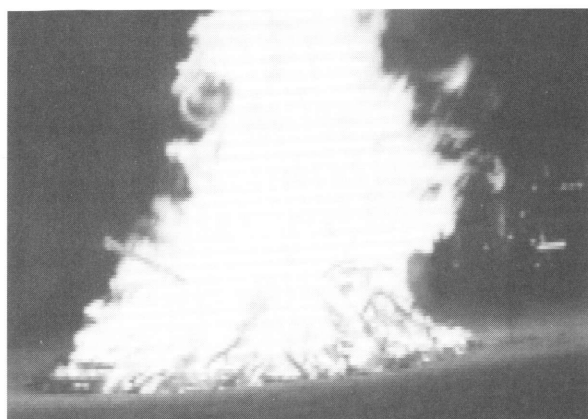

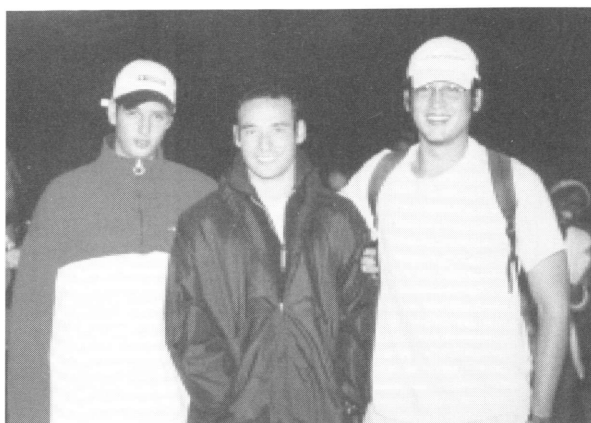

Coach Sevier and Andrew Dodd get into the Halloween spirit.

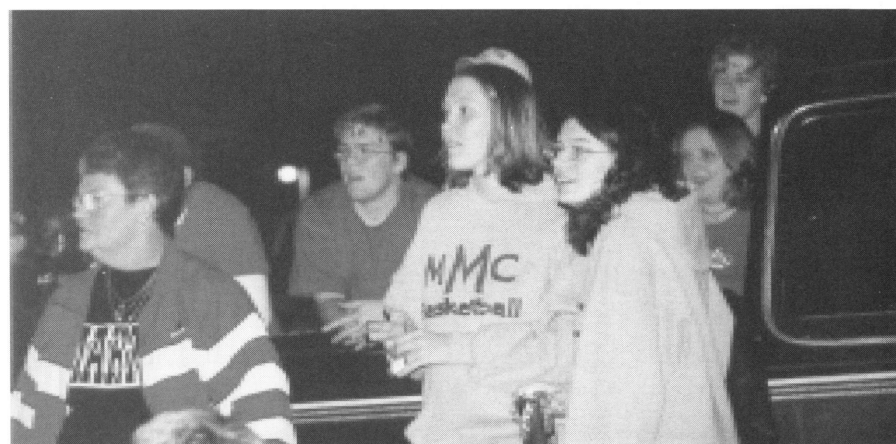

Brooke Bassham and Elizabeth Estes recreate an old favorite.

Wendy Hobbs reminded us of the days gone by in her pilgrim costume.

Homecoming Bonfire

Our Royal Court

On November 16th, fans filled the gymnasium to enjoy an afternoon of memories in the making. The women's team defeated Reinhardt College, and the men's team scored a victory against Athens State. ??? CURRENT EVENTS ???

What do you say?

How does the explosion of the space shuttle Columbia affect us as college students?

“The Columbia explosion reminds us that sometimes bad things just happen, and we cannot rely fully on science and the world around us. We can only rely on the Lord.” -Ashley Byrd

“The Columbia accident impacted my view of the real costs of progress through the space program. It makes me appreciate the gift of life that we have been given.” -Kevin Thornthwaite

How would a war with Iraq affect you?

“The war situation with Iraq has really shown me how we, as a nation, need to unify in prayer for our nation and for those who are fighting on our behalf.”

If my people who are called by my name will humble themselves, pray and seek my face, and turn from their wicked ways, then I will hear from heaven and will forgive their sins and will heal their land. 2 Chronicles 7:14

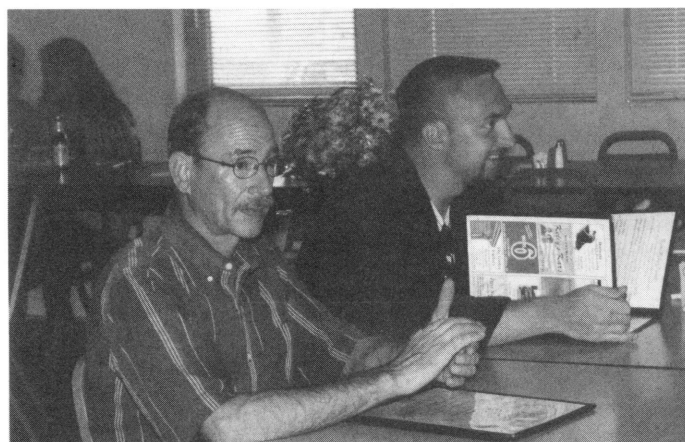

-Kourtney Hendricks

“War with Iraq is complicated. On one hand, it seems as though politicians are padding the pockets of the oil industry and losing focus of the local economy. On the other hand, American economy throughout history has thrived and reached its peaks during and after war.”

-Josh Rolin

“My cousin is going to be shipped there soon, so it's personal. I don't think that we should go to war. It makes me really sad.”

-Bonnie Merritt

??? Thoughts of MMC ???

What will you miss most about MMC when you leave?

"I'll really miss the close-knit social life and many friendships that I have made. MMC offers a wonderful opportunity to meet so many interesting people from all over the world and to have great friendships and experiences. The MMC community is also very accepting and supporting to all of the unique individuals. I can speak personally, being the sole Muslim on campus. I have had a great time socially and have been very comfortable being who I am without any constraints." -Moez Ali

Who is your favorite teacher, and why?

"Dr. Whittemore...definitely. He's a really awesome teacher and a good friend. You can talk to him about anything, not just class." -Kelly Clifton

"Mr. Sneed is my favorite teacher here. I just like him." -Caitlin Greene

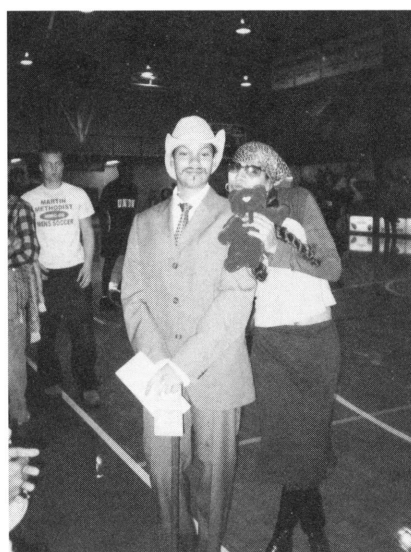

"Mr. Johnson is the most wonderful teacher! He is very compassionate and approachable. He is always willing to help in any way that he can." -Stephanie Sanderson

How was the transition from high school to college?

"Overall it was a good one. There is a lot more freedom to do what you want in college." - Elizabeth Hale

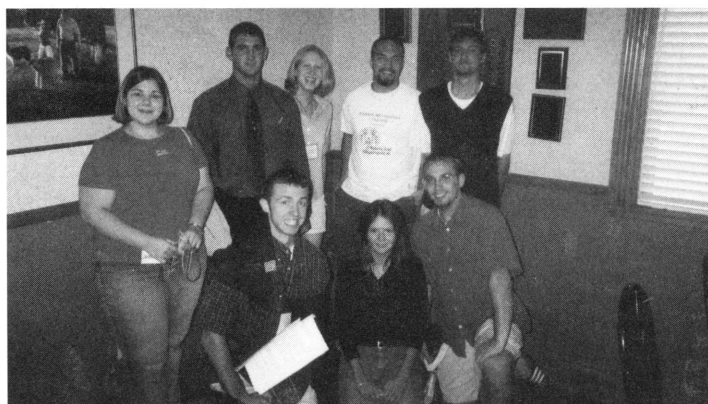

"It was fun, but hard at the same time because I had to leave my family and friends back home." - Kelly Jennette

Believe it or not, that's Moez Ali in the skirt. He sure has had some strange experiences here!

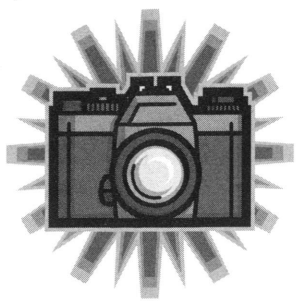

Caitlin has made some lasting friendships.

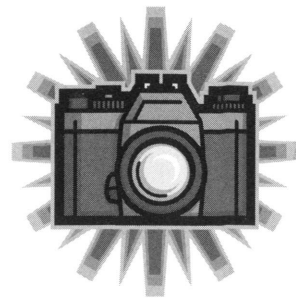

This year's Freshman Seminar PALS worked hard to make the transition from high school to college a smooth one.
